JOIN US FOR CIACC!

You have a voice. We would like to have your voice at the table.

How can we bring your voice to our table?

What do you think we can do for your family?

What is CIACC?

CIACC stands for CHILDREN'S INTER-AGENCY COORDINATING COUNCIL

The Bergen County CIACC serves as a mechanism to...

- Advise the County Mental Health Board and the NJ Department of Children and Families in planning services for children;
- Provide the County with a multidisciplinary forum to review and discuss the system of services for children with special social, emotional, and behavioral challenges;
- Identify and address barriers to effective service delivery;
- Identify solutions for the County and make appropriate recommendations on programs and policies that impact children and families;

...through a partnership of parents, consumers, government, community-based organizations, and service providers.

The ultimate goal of the CIACC's activities is to monitor the system of services relating to intellectual/developmental disability, mental health and addiction services available to children and families to ensure that the appropriate and least restrictive level of care is obtained and that a comprehensive system of needed services within the County is maintained.

This preserves the integrity of treatment and saves public funds by diverting unnecessary out-of-home placements.
