

DESIGN CERTIFICATION
For
DRIVEWAY & ROADWAY SIGHT DISTANCE

I, _____, (engineer's name), the Design Engineer for the below referenced project, hereby certify, as a licensed Professional Engineer in the State of New Jersey, that all driveways and roadways intersecting County roads, and related improvements, in County Planning Board Site Plan/Subdivision Application # _____, for _____

_____ [Project Name/Address] are designed in full conformance with the Bergen County Site Plan/Subdivision Ordinances sight distance criteria, and AASHTO, A Policy on Geometric Design of Highways and Streets, whichever is more stringent.

The driveways and roadways included in the project, or potentially affected by the project's site improvements, were thoroughly evaluated for unobstructed horizontal and vertical sight distance lines and found to be in full compliance with the above referenced ordinances and design standards.

This certification is supported by the following sight distance analysis documents attached: _____

(title, prepared by, original date, revision no & date, and number of sheets).

Upon project completion, the Design Engineer shall field verify proper sight distance lines exist as designed with no changes negatively impacting proper sight distance.

I understand that improperly designed or constructed improvements that fail to provide adequate sight distances shall require corrective action by the Applicant and/or Design Engineer to achieve the required sight distances.

(Name/Title of Design Engineer)

(Signature of Design Engineer)

(Date) (P.E. License Number) (P. E. Seal)

(THIS CERTIFICATION MUST APPEAR ON COMPANY LETTERHEAD)
